 - (d) That a bond or a certified check payable to the City is deposited with the City Auditor in an amount set by the City Council. The bond or certified check shall be for the purpose of cleaning up the site if the conditions of the permit are not followed and if the applicant does not immediately clean up the site. The amount of the bond or certified check shall be based on the City Council's estimated cost to clean up the site if the conditions of the permit are not followed.

8. The permit from the Building Inspector authorized by Sections 15-0311(3) and (4) shall set forth the following conditions:
 - (a) The site where the dumping may occur.
 - (b) What materials may be dumped.
 - (c) That the drainage plan be followed.
 - (d) That if concrete or similar materials are permitted to be used as fill, the permit shall state the time period in which such materials may remain uncovered.
 - (e) That the permit shall expire one (1) year after issuance.
 - (f) Any other condition which the City Council deems advisable in order to control the dumping.

15-0312. **NOTICE TO REMOVE NUISANCES.** Except where otherwise provided in this chapter, if any person within the limits of the City of Kindred shall permit or suffer on his premises or premises of which he may be the occupant, any nuisance, the City Council, any member of the City Council, or such persons authorized by the City Council shall cause notice to be given such person to remove or abate such nuisance. Said notice will be given following receipt by the City of a complaint regarding such nuisance. The notice shall set forth specifically the nuisance to be removed and the period of time in which it must be removed. The time period allowed for abating the nuisance shall not be less than forty-eight (48) hours after notice shall have been given, provided, however, that the time period may be less if the nuisance has caused or may cause death or injury to any person within the City of Kindred. Provided further, that the provisions of this section shall in no way abrogate or restrict any emergency authority granted to the City Council or other emergency authority delegated to and exercised by persons duly authorized by the City Council.

15-0313. **FAILURE TO REMOVE - PROSECUTION.** If any person, as owner or occupant of any lot or tenement, after notice as provided in Section 15-0312, neglects or refuses to remove or abate the nuisance, the person giving such notice shall notify the City Attorney, who may commence prosecution of the offense in the Municipal Court or seek injunctive relief in any courts of the State of North Dakota.

15-0314. **FAILURE TO REMOVE - CIVIL PENALTY.** The City official who sent notice of removal or abatement of a nuisance, may, in addition to the remedies set out in the previous section, if the nuisance is not abated within the time period set out in the notice, send notice to the violator of a hearing to be held by the City Council to determine whether or not City officials should be directed to abate the nuisance. The violator must be given five (5) days written notice of the time of the hearing. If at that hearing the Council determines that City officials should abate the nuisance, the Council shall direct employees of the City to do so, and direct that all costs and expenses incurred in that abatement shall be assessed against the property concerned by the

City Auditor. Provided, however, if the City official determines that the nuisance presents a clear and present danger of injury or death to a person in , that official can direct City officials to abate the nuisance immediately without the need for Council action. Once each year, after written notice to all violators, the City Council shall review all such assessments and hear all complaints against the same and approve the assessments as finally determined by the City Council. Such special assessments shall then be certified to the County Auditor and be placed upon the tax roll for that year and to be collected as other taxes. The decision of the City Council or City official to abate the nuisance in no way relieves the violator of prosecution under the prior section.

15-0315. **PENALTY.** Any person violating any section of this chapter shall be guilty of an infraction and a minimum fine of two hundred and no/100 dollars (\$200.00). Each forty-eight (48) hour period such violation continues shall be considered a separate offense.

15-0316. **AUTHORIZED PERSONS.** The following persons are hereby authorized by the City Council to send out notices and take other actions as set out in this chapter to abate nuisances:

1. Any member of the City Council.
2. City Health Officer.
3. Chief of Police.
4. Superintendent of Streets.
5. Chief of the Volunteer Fire Department
6. Building Administrator.
7. City Forester.

15-0317. **ODOR - NUISANCE.**

1. Within the city limits of the City of Kindred it shall be deemed a nuisance if there is a discharge into the ambient air of any objectionable odorous air contaminant which is in excess of two (2) odor concentration units outside the property boundary from which the emissions are being discharged.
2. A Barnebey-Cheney Scentometer properly maintained, or other instrumental method as approved by the State Health Department, must be used in determination of the intensity of an odor. An odor will be considered objectionable when at least two inspectors which have been certified by the State Health Department deem that odor objectionable if the odor were present in a place of residence. An “odor concentration unit” means the maximum number of standard units of odor-free air diluting a standard unit of odorous air so that the certified inspector can still detect that objectionable odor in the diluted mixture.

3. No person may discharge into ambient air hydrogen sulfide (H₂S) in concentrations that would be objectionable on land owned or leased by the complainant or in areas normally assessed by the general public. It shall be deemed a nuisance if two (2) samples with concentrations greater than 0.05 parts per million (50 parts per billion) are sampled at least 15 minutes apart within a 60-minute period. For measuring emissions of hydrogen sulfide, an ambient air analyzer designed for monitoring hydrogen sulfide must be the method used for determining the concentrations of emissions at the point of measurement, or other instrumental methods as approved by the North Dakota State Health Department.
4. The certified inspectors, in operating the Scentometer, an air analyzer designed for monitoring hydrogen sulfide, or other instrument approved by the State Health Department, must follow North Dakota State Health Department guidelines and procedures in conducting such test.
5. For purposes of this section, if a notice to remove or abate a nuisance is given, the odor nuisance will not be deemed to have been abated unless there are no further violations of Section 15-0317 for a period of thirty (30) consecutive days.
